RAKOVNIK, CZ

DATE

5 April 2022

Florensis BV declares as a supplier of plant material, that:

- The supplied products comply with the current legislation and the regulations concerning the intellectual ownership of the (UPOV) Union for the Protection of New Varieties of Plants.
- The supplied products are free of pests and disease or other damage.
- Detailed administration is kept concerning the chemical crop protectants which have been applied in the production of young plant propagation and can be asked for.
- At receipt, plant health certificates are included if necessary. Plant health certificates can be supplied at request.
- The place of origin of the plant material is kept in administration and can be asked for.
- All produced plant species in the Florensis BV's assortment have been created using traditional breeding methods without the use of genetic modification techniques leading to GMO's (genetic modified organisms).
